14th ANNUAL SCIENTIFIC PROGRAM

February 29, March 1 & 2, 2008

HEALING WITH HORMONES

Category 1 CME 15 hours

OUR FACULTIES are among the most innovative and experienced orthomolecular healers on Earth. From megavitamins in the 70s and Antioxidants in the 80s to Coagulation and Methylation in the 90s OHM has paved the way for better diagnosis and treatment in clinical medicine. Now we explore the new understanding of hormones as information molecules in cellular communication and adaptation. This advances our concept of hormones to include neurotransmitters, cytokines and peptides as well as the basic endocrine molecules of the pituitary-steroid and pancreatic-hepatic-thyroid systems.

FRIDAY February 29, 2008		
9:00	Sign in and Welcome: methylation effect on receptors.	Richard A. Kunin, MD
10:00	Nutrient – hormone interactions	Fred Crawford, PhD
11:00	Effects of herbal aromatase and rTK inhibitors in cancer	Tsu-Tsair Chi, PhD, NMD
12:00	EXHIBITORS RECEPTION – Lunch (sponsored by Spectracell Lab)	
2:00	Methylation and glutathione, key to chronic fatigue syndrome	Rich Van Konynenburg, PhD
3:00	Understanding Neurotransmitters and Cytokines	Aristo Vojdani, PhD
4:00	EXHIBITS	
5:00	Diagnosing hormonal needs	PANEL
SATURDAY March 1, 2008		
9:00	Comprehensive hormonal testing	Dawn Huo, PhD
10:00	Dietary modulation of insulin and glucose	Jack Challem, MA
11:00	EXHIBITS	
12:00	Anti-neoplastons and personal cancer treatment	Stanislaw Burzynski, MD
1:00	LUNCH	
2:00	Anti-Aging Peptides and amino acids, a new frontier	Stanislaw Burzynski, MD
3:00	Glutathione, an anti-inflammatory hormone	Tim Guilford, MD
4:00	EXHIBITS	
5:00	Peptides and hormones in clinical practice	PANEL
SUNDAY March 2, 2008		
9:00	Hidden in plain view: the role of oxygen and carbon monoxide.	Albert Donnay, MHS
10:00	EXHIBITS	
11:00	The many uses of hormones in health and healing	Michael Gerber, MD
12:00	Bio-identical hormones in office practice	Ann Hathaway, MD
1:00	LUNCH	
	Conference ends after lunch.	

OHM guarantees that you will gain new ideas about the practical uses of hormonal agents in primary care practice. Come and learn in the company of your caring and open-minded peers, some of whom will become your life-long friends. Please join us as we leap into our 14th year of Health Medicine and salute the memory of Linus Pauling on his 106th birthday. Orthomolecularum!
